# JUPITOR GROUP

We are very pleased to present you this price list which briefly introduces our organization and our contributions to the Dairy Industry in India and abroad.

Founded in 1966, we are proud of the fact that every member of the group contributes to the progress of the Dairy Industry and the adoption of new technologies in India by offering state-of-the-art products in the ever expanding field of Dairy Science. The scope of our activities is global. The various types of Dairy Equipment presented by our member firms help meet the need of quality assurance, higher productivity, efficient management of resources and maximum returns for all Milk plants, whether large, small or mini.

Our organization works as your partners who offer comprehensive solutions, as technologies do not remain the same. We offer complete solutions, alternatives, advise you on the modernization or extension of your existing equipment. As your powerful partners, we are in a position to take over a multitude of tasks.

This price list contains an outline of our organization and its activities, the products and services offered by member firms and our total commitment and dedication to complete customer satisfaction. We sincerely hope that this list will help you better understand the nature and purpose of our organization, while providing you an insight to the vast range of products and services offered by us which can be broadly classified into the following categories:

- Laboratory equipment for quality control and analysis.
- Automatic Milk Analyzers.
- Automation of Dairy Plants and Milk Collection Centres.
- Calibrated and Certified Glassware.

Because of the very nature of some of the services offered and the vast range in sizes and standards of some of the products, we cannot possibly quote standard prices everywhere. However, prices for these services and products will be made available with complete specification as soon as we receive your valued inquiries.

Thanking you, we eagerly look forward to serve you.
